

## **Welcome to Otway Blueberry's Pick Your Own!**

We have a few simple tips to making your blueberry picking experience perfect!

- Blueberries will not ripen after being picked, so only pick them once they are blue! (They are unlike a banana or avocado)
- Please pick into the baskets provided. Your fruit will be weighed as you leave and put into your containers (or plastic bags if you didn't bring a container). If you wish to pick into your own container it must be weighed prior to starting picking.
- There is no entry fee but a minimum charge of \$15 per family (which equates to one kg of blueberries).
- Picking rates are \$15 per kg if you pick under 5kg. After you reach 5kg, a discount of 20% applies to the total, which drops the rate effectively to \$12 per kg.
- Our blueberries have nothing sprayed on them so they are safe to eat on the way home.
- Staff will instruct you on the picking field for the day, please ensure you pick between the allocated areas for your own safety. Failure to stay in the allotted area will incur a fee.
- No dogs allowed inside the picking area, unless it is a helper dog.
- No running down the aisles or throwing blueberries. We ask that children are supervised at all times, mostly so they don't get lost.
- Smoking is prohibited.
- All blueberries picked must be paid for, even if you picked more than you intended. We cannot use them for our own commercial use.
- We advise you arrive prepared by bringing a hat, sunscreen and water. Flies can be a problem so we also recommend a fly net.

We open 7 days a week, 9am to 5pm. Last entry at 4.30pm. Times may differ in the event of extreme heat or rain.

Our Facebook page is updated daily for picking availability, and we apologise in advanced if picking has been closed due to running out of blueberries or extreme weather conditions.
